

# Monolithic Industries

## **STREAM-ALIGN™** WATER TROUGH SYSTEM

### **BENEFITS FOR YOUR EXTRUSION BUSINESS**

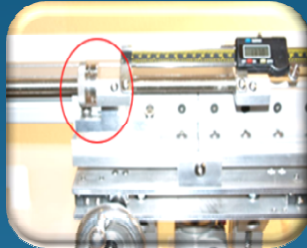

- Product repeatability from digital controls
- More repeatable physical properties for tubing
- Reduced set up time
- Increase GMP compliance
- Reduced bacterial loads
- Save money with engineered sensor mountings
- Customize the modular system to your needs.
- Safer operation for your staff – reduce burns

# STREAM – ALIGN™ FEATURE HIGHLIGHTS

Digital Air Gap

Precision Air Gap Stop

Digital Flow Meter

Precision Water Level Control

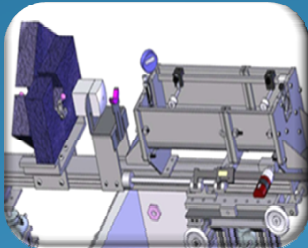

Calibrated Iris

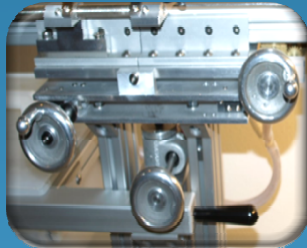

Digital Level

Monorail Mounting

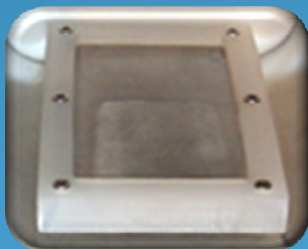

Precision XYZ Position Controls

Modular Trough Design

No Turbulence Water Diffuser

5, 10 or 20 Micron Filter

Pyrogen Filter  
OPTION

UV Purifier

*Rethinking Extrusion...*
